C.W.W. Kannangara Central College

7A's, 1B, 1C

💼 PROFESSIONAL EXPERIENCE

QA Engineering Intern – People's Bank (Head Office)

Completed a 6-month internship focusing on User Acceptance Testing (UAT) for the People's Pay mobile app.

QA Engineer at Ceylon Dazzling Dev Holdings (PVT) LTD

Experienced Quality Assurance Engineer with 1.5 years of expertise in executing both manual and automated testing workflows to ensure robust software quality. Proficient in identifying system defects, designing comprehensive test cases, and building automated scripts to streamline regression and end-to-end testing.

📁 PROJECTS

People's Pay Mobile App – UAT Testing

Performed UAT for the People's Pay mobile application. Designed and executed test cases, identified defects.

PixelsSuite Automation Testing – Playwright

This Playwright test suite automates the end-to-end conversion, validation, and download workflows for PixelsSuite.

PixelsSuite Automation Testing – Selenium

Developed maintainable Selenium WebDriver automation for PixelsSuite using Java and Maven to validate core functional and UI workflows.

Develop Mobile App to predictive Analytics Framework for Optimizing Mushroom Cultivation (Research Project)

This AI- and IoT-based framework for mushroom cultivation enables early disease detection and provides automated treatment recommendations to protect crop health. By offering trend analysis and mobile decision support.

EventEase (E-Commerce Platform)

Designed and deployed a full-stack ticket booking and management system using the MERN stack.

Figma Design(UI/UX)

Designed Food Delivery mobile application and Event Management application.
